

# Covid-19 Guidelines

We can't wait to open our doors again and welcome you inside. We pride ourselves on the cleanliness of our restaurant at all times, however during Covid-19 we are taking extra precautions to keep our customers and our staff as safe as possible. We ask if you have any of the following symptoms, please do not visit us: Continuous cough, High temperature, shortness of breath.

This is a learning curve for us all, and while we are confident we're covering all bases we will always welcome suggestions.

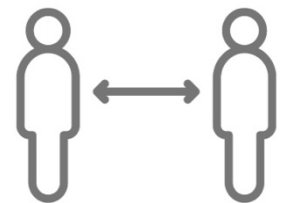

## Takeaway

We will be offering our food to takeaway. We ask you to phone or facebook message us to place your order and pay via phone or payment link. When collecting in a vehicle please arrive before the allocated time and open your car boot, one of our team members will place your order in the boot. If you are collecting on foot we ask that only one person comes to collect please, when you arrive please wait in the allocated pick up area.

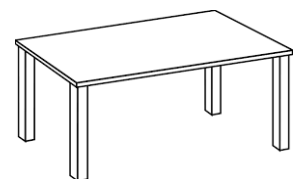

## Social distancing

Many of the tables have been taken out of use to provide adequate spacing between families. You will find signs around the restaurant providing you with the relevant information. We cannot wait to be a part of your summer memories again and children are welcome as usual, however we ask that you ensure your children remain seated at the table throughout your visit to maintain correct social distancing. Unfortunately at present we are unable to allow dogs inside the restaurant, they will however be able to join you in our temporary outside space.

## Table service

We will be operating a table service system only. Please wait to be seated at the door. We are aiming to limit contact with individuals so you will have one server throughout your visit, please bare in mind we're all adapting to new ways of working and at busy times there may be a slight delay.

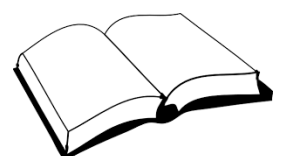

## Seating

To allow us to maintain social distancing seating is limited. The maximum table size we can accept is a table of 6.

6

## Contact Track and Trace

Following government guidelines we will be collecting contact details from each table to allow tracing should a breakout occur. We will destroy all details taken as soon as we are allowed to.

## Hand Sanitising

We're aware that the best way to reduce the spread of covid-19 is with good hand cleaning. Hand sanitisers will be found at the entrance and in the toilet area.

## Reducing Contact

We will be reducing contact by providing all condiments and seasoning in individual sachets. We have also removed all menus, our menu is available by scanning a QR code on your device. If paper menus are required for some customers they will be single use, and thrown away after use. At this time we will NOT be accepting any CASH payments. All payments are to be made by CARD ONLY.

## Cleaning

Each table will be wiped between customers as normal. We will wipe the surface and the edges as well as the chairs and the legs. Our toilet cleaning schedule has also been increased throughout the day. All of our cleaning products are certified to be effective against COVID-19.

## Toilets

Our customer toilet will be open, strictly for customer use only. Because we only have one toilet we ask that you remain seated at your table until the toilet is free to avoid queuing.

## Protecting our teams

Our team will be provided with the protective equipment they need to work safely. All staff will be provided with a face mask to wear throughout their shift and will be reminded to wash their hands more regularly than usual.
